

VEEMIOS

Visitor Management System

A Community app for condominiums, residential communities, office buildings, schools, gyms, recreational clubs, and many more.

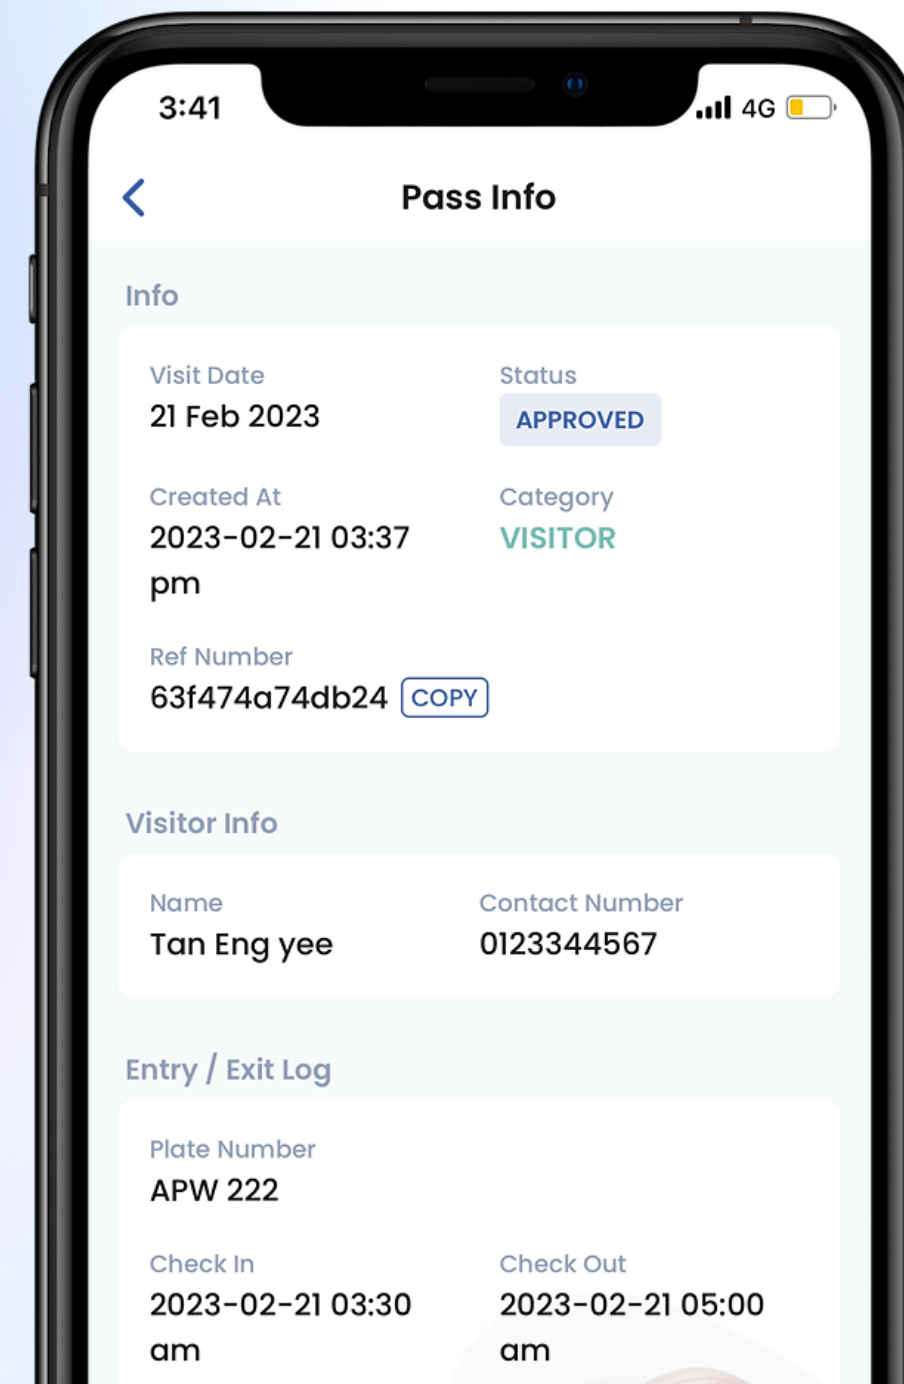

www.veemios.com

Visitor Management

Your security guard house is the most important part of your building's security. Veemios can help you ensure that all visitors are recorded before being allowed entry to your premises.

1 Pre-register Visitors

Allow residents or employees to pre-register their guests or service contractors ahead of time

2 Easy Verification

Send QR code to registered visitors for easy verification at the guard post

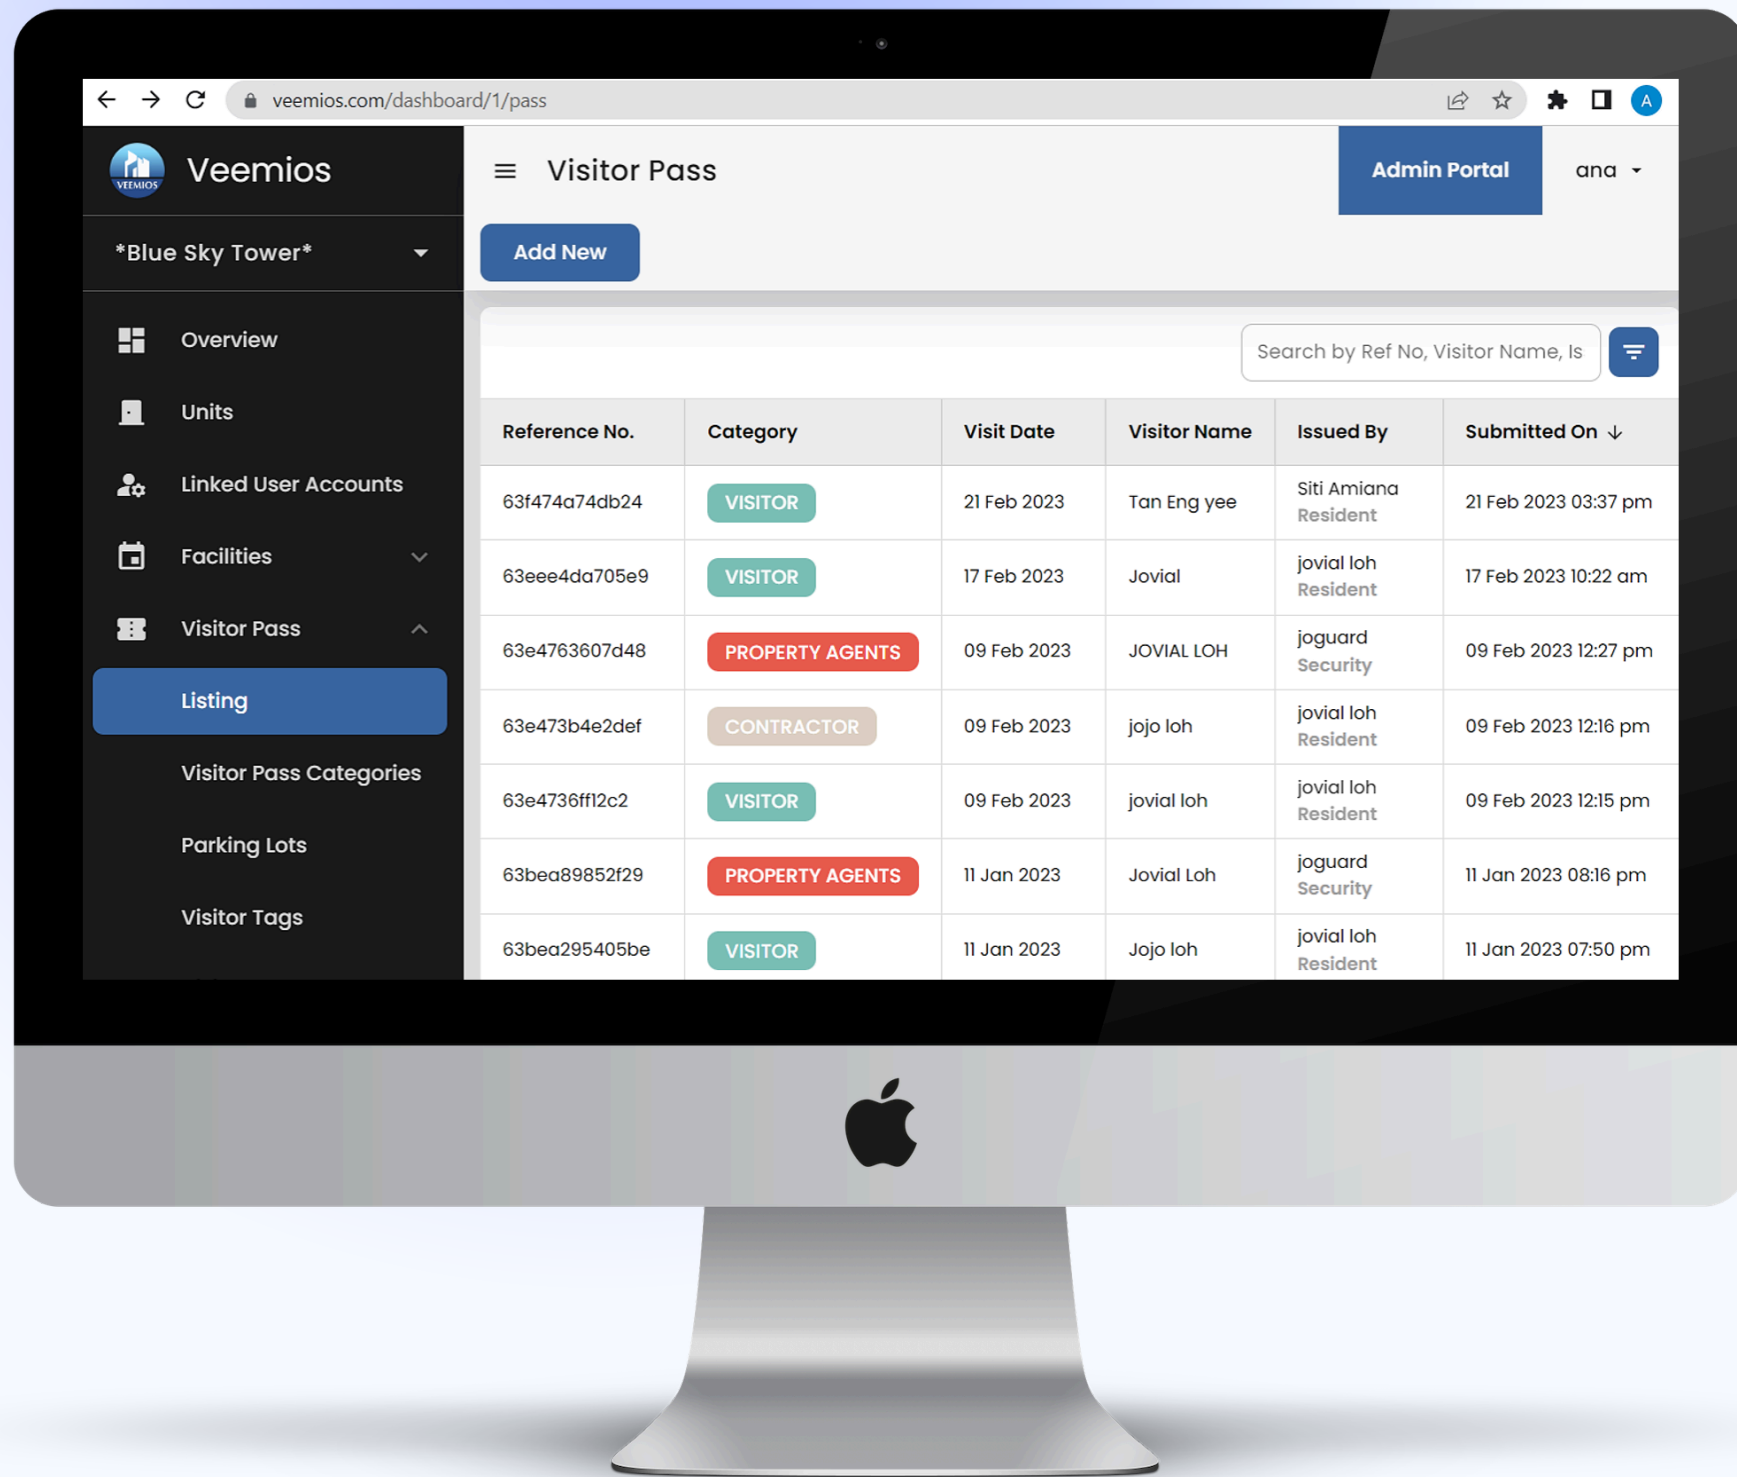

3 Walk-in Visitors

Security guards can register any walk-in visitors

4 Get Notified

Residents or employees will receive app notifications when their visitor arrives

Visitor Management

5 Get Organized

Create your own categories for different types of visitors, such as guests, contractors, deliveries, homestays, etc

6 Monitor Visitors

Keep track of overnight visitors

7 Car Parks

Manage visitor car parks

8 Detailed Reports

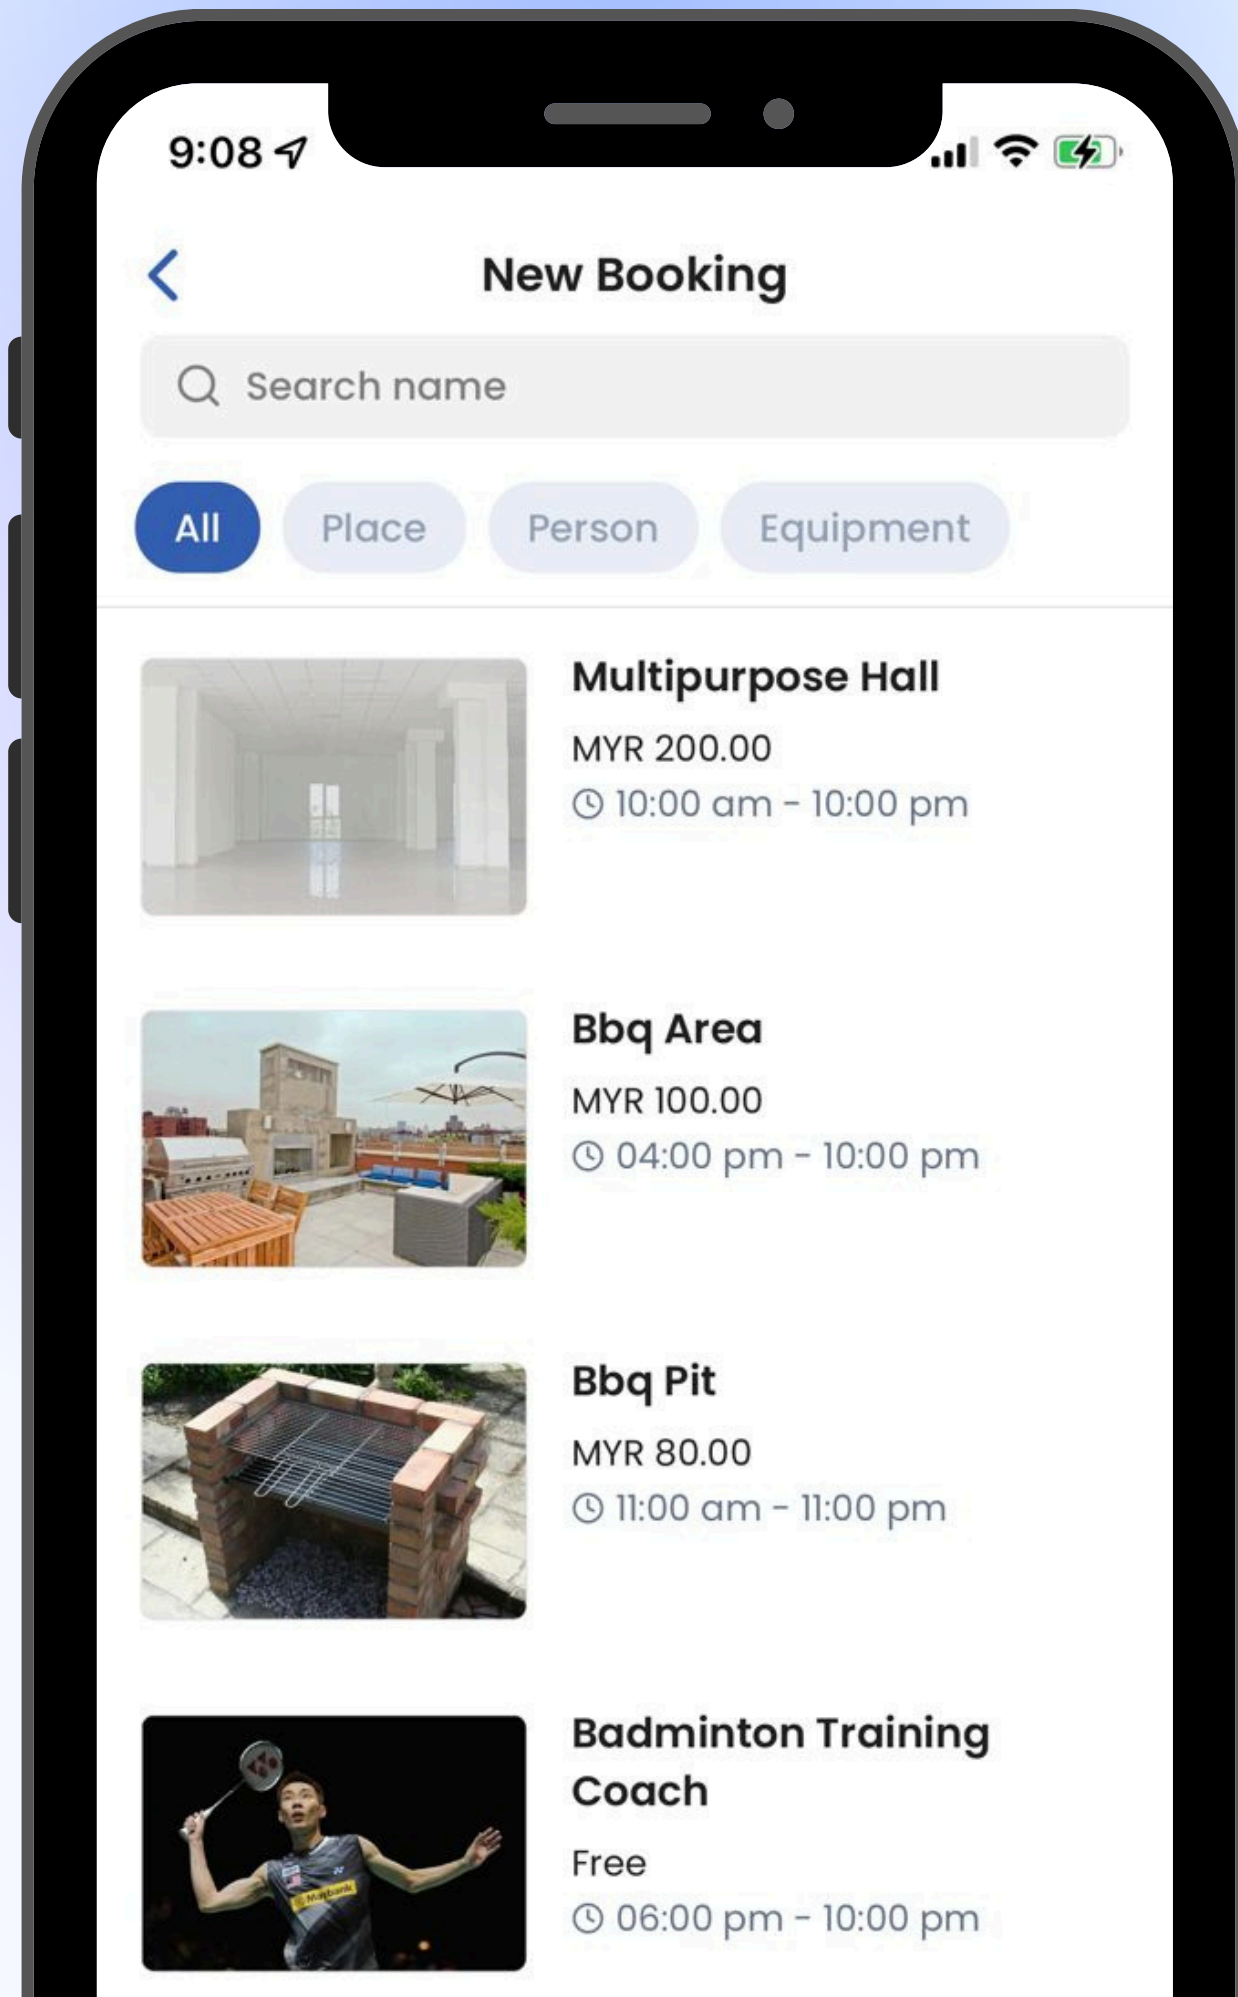

Detailed Visitor Reports - Current Visitors, Current Vehicles, Parking lots Occupancy, Overnight Visitors and etc

Facilities Booking

Does your building have shared facilities for residents, members, or employees?

Say goodbye to managing these bookings manually.

Now, with Veemios, the booking process can be entirely automated!

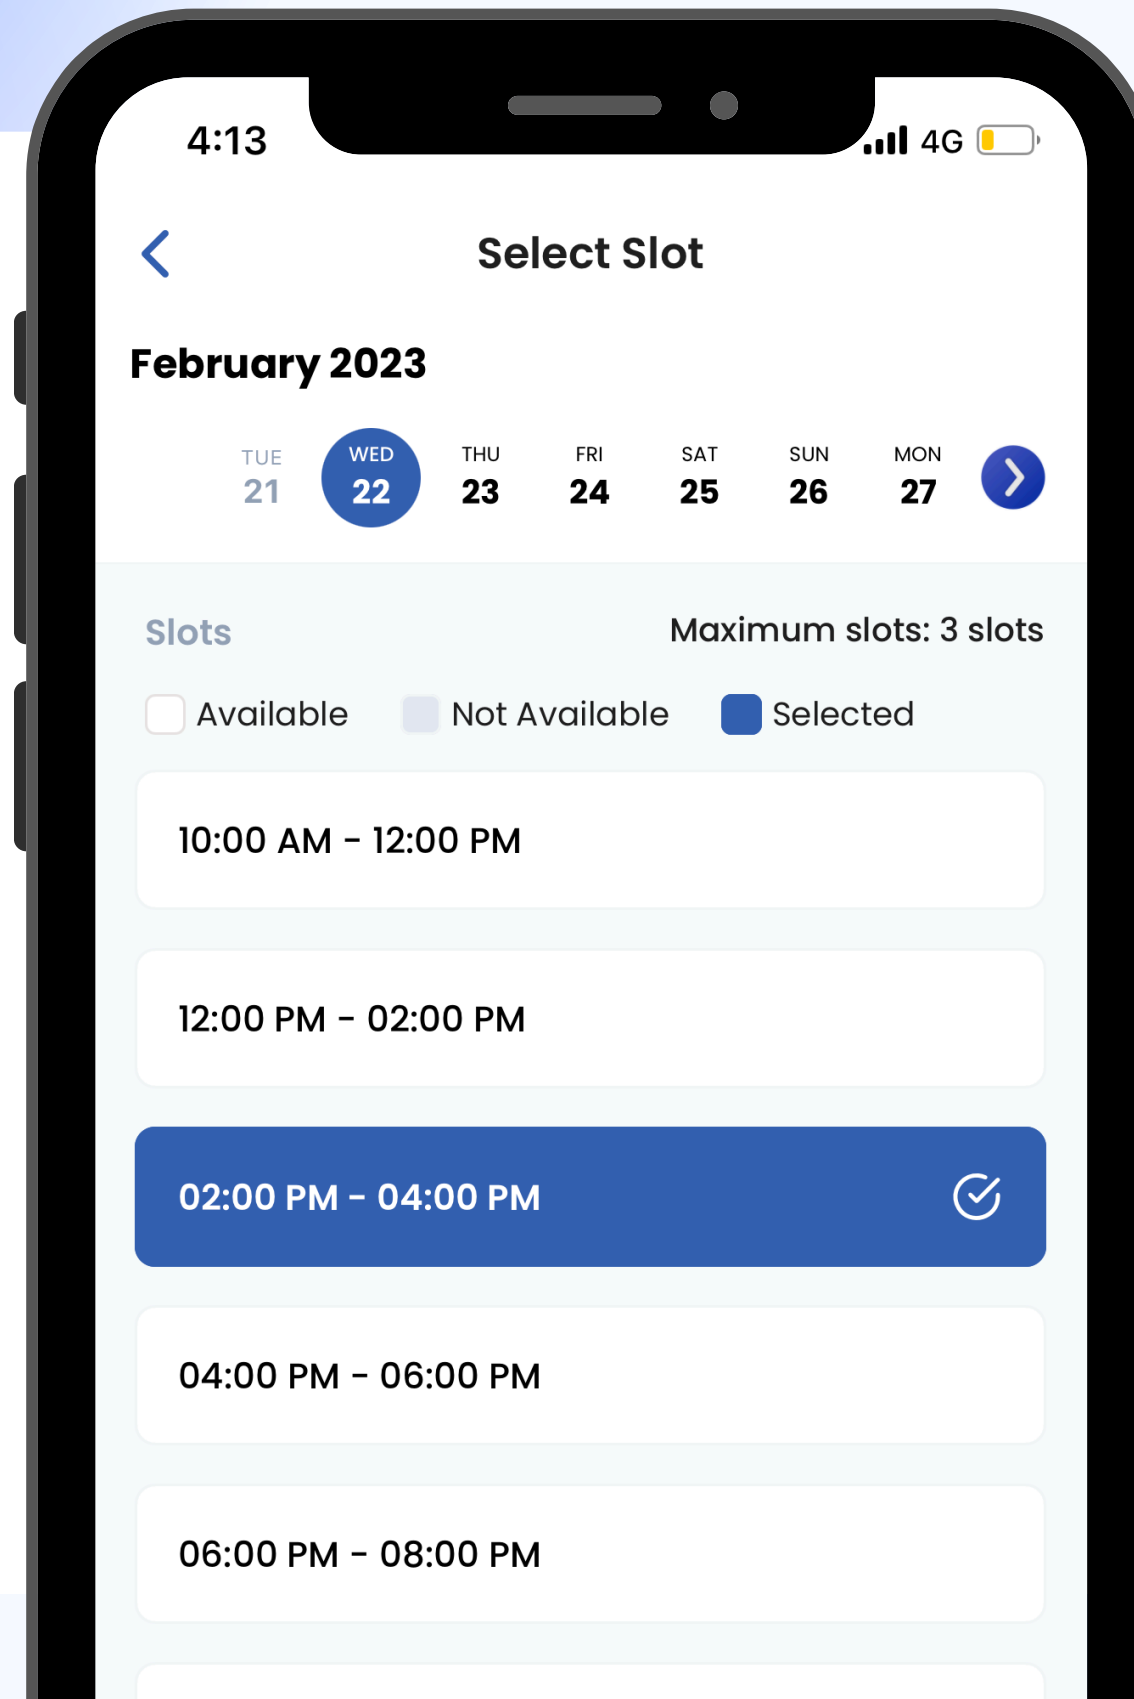

Facilities Booking

Features

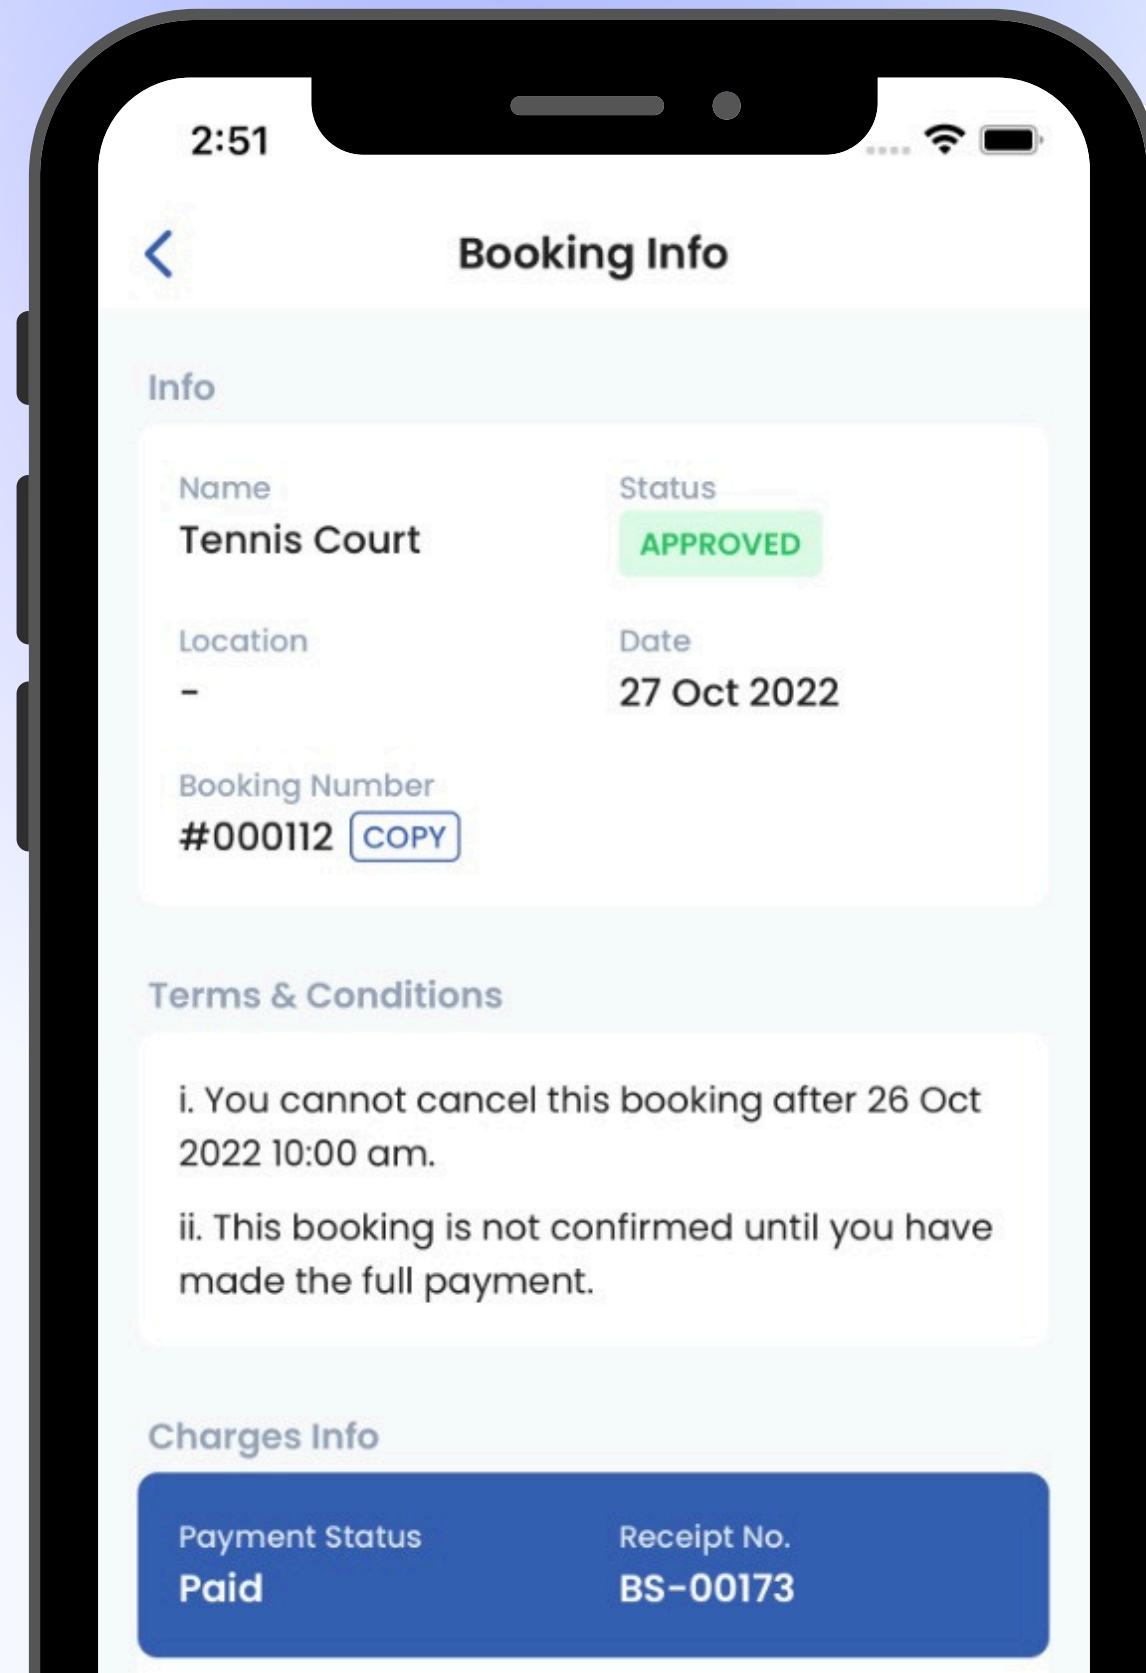

- ✓ List all available facilities with details, photos, and booking charges
- ✓ Create customized booking time slots for each facility

- ✓ Temporarily disable any facility that is under maintenance
- ✓ Residents and employees can select their desired time slot and book through the app

Facilities Booking

E-Payment Integration with Condo Master

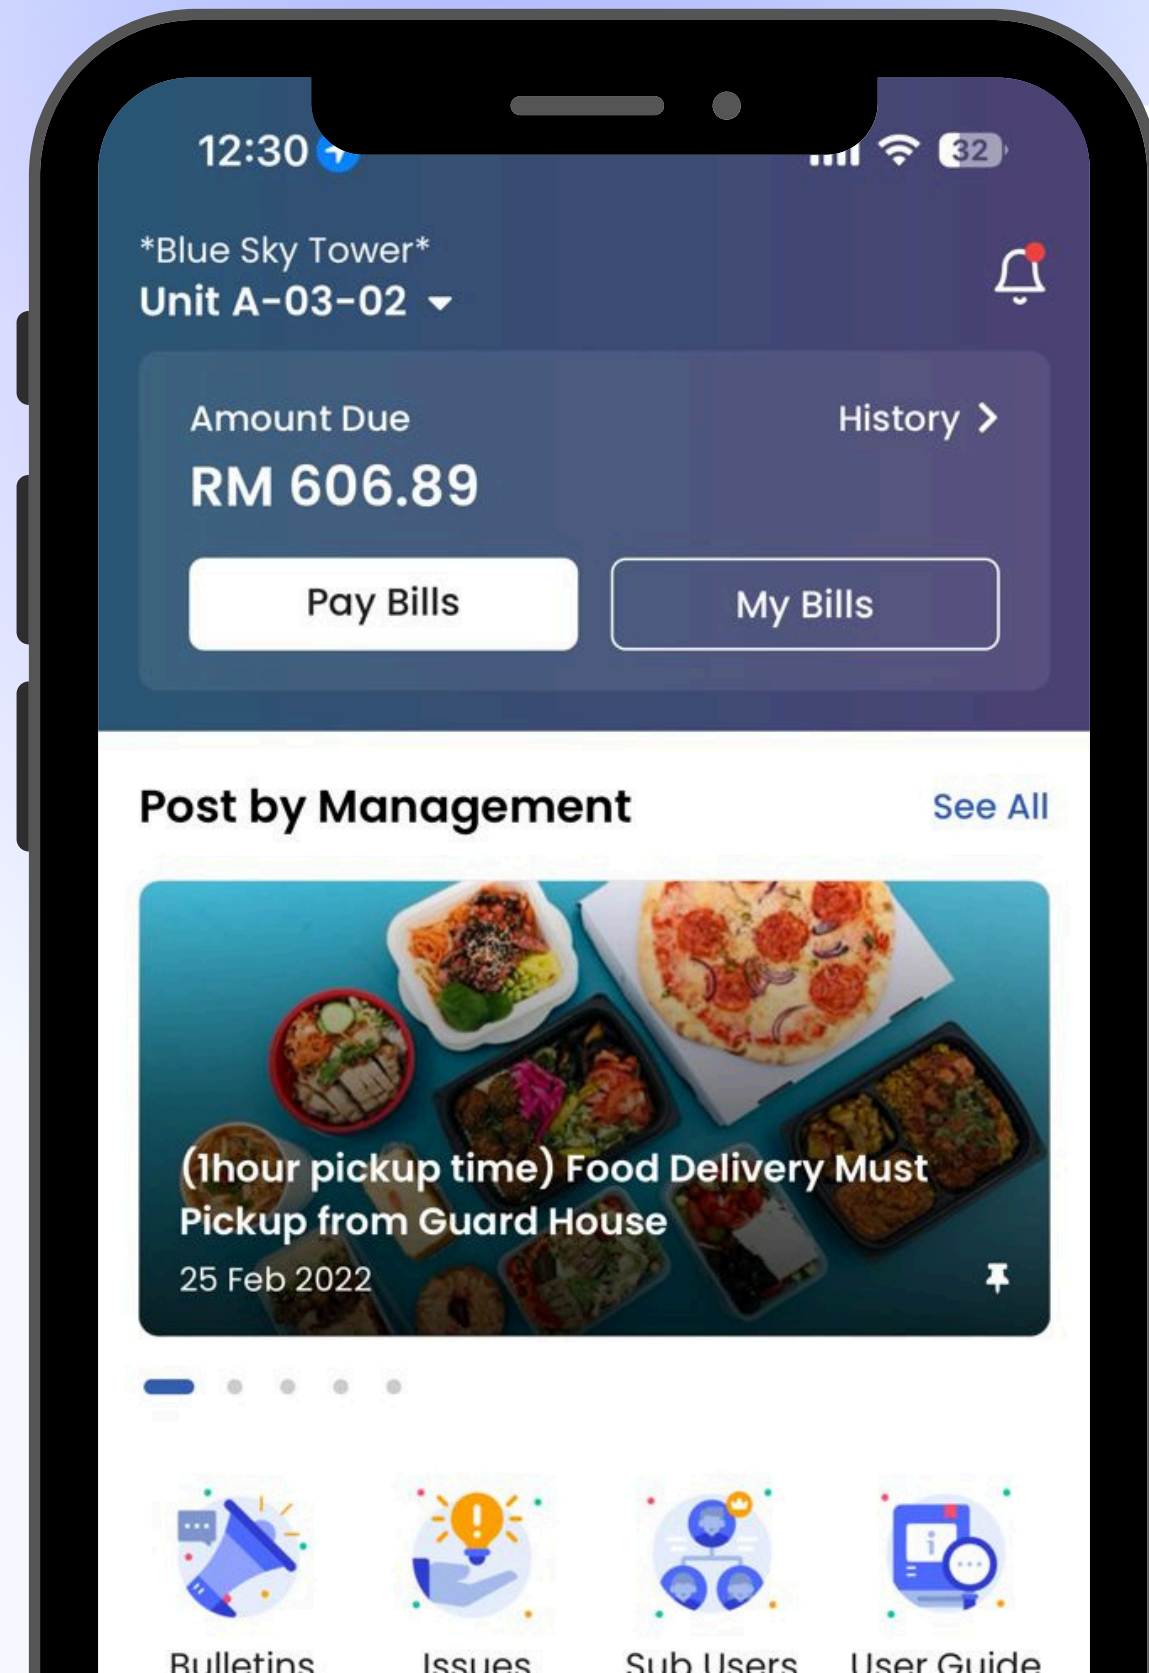

- ✓ Residents or members can make payments in the app and receive immediate booking confirmation.
- ✓ Condo Master will automatically issue an official receipt and update the accounting records
- ✓ Online payments help to minimize cash collections at the management office and prevent any misappropriations of cash
- ✓ Auto block defaulters from making any bookings

• You need to sign up with Fiuu to use E-Payment

Pay Bills

E-Payment Integration with Condo Master

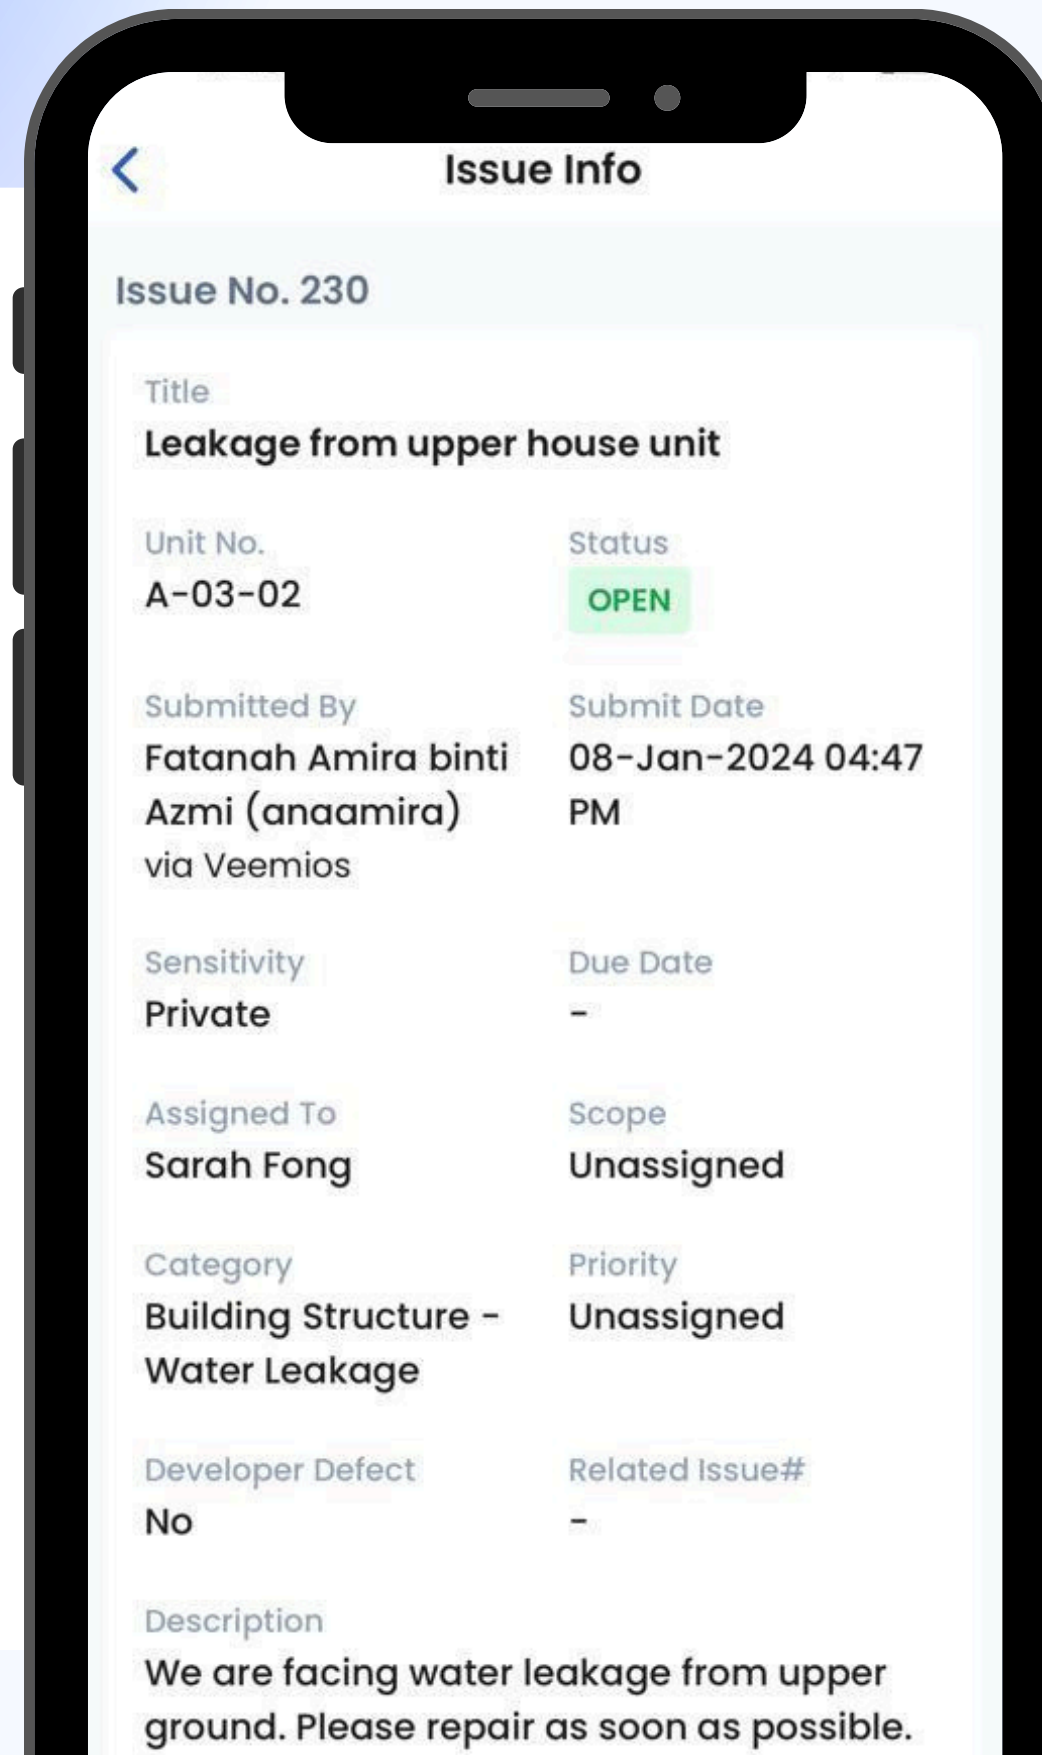

- ✓ Easily pay maintenance and utility bills through Veemios
- ✓ See the amount due, view bills and payment history
- ✓ Condo Master will automatically issue an official receipt and update the accounting records
- ✓ Online payments help to minimize cash collections at the management office and prevent any misappropriations of cash

Issues Log

Features

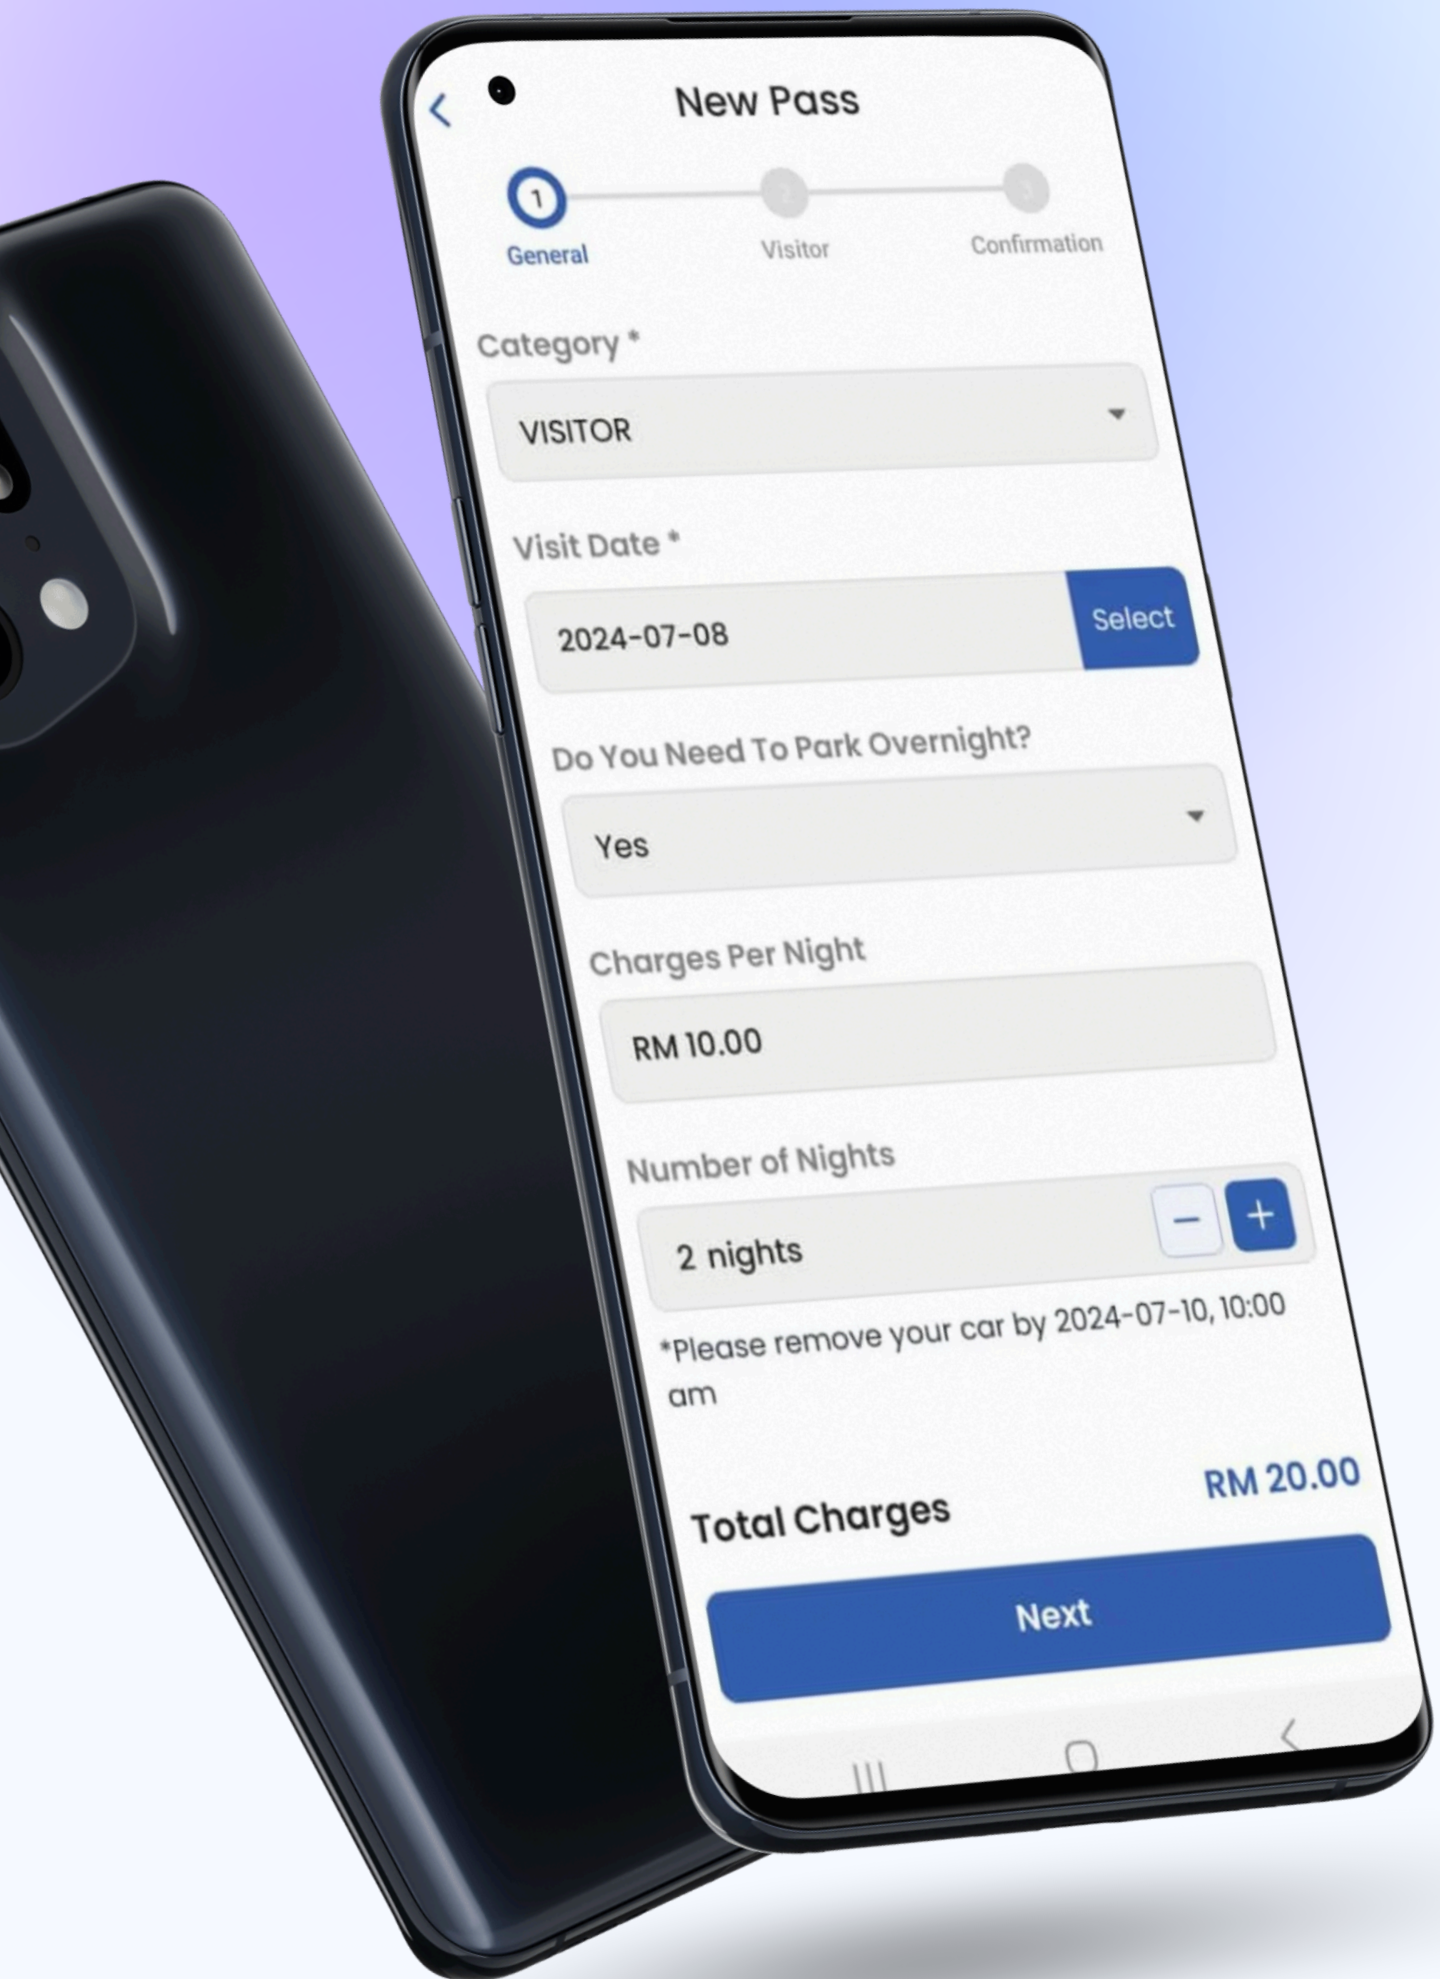

- ✓ Residents can submit any complaints or maintenance requests to the management
- ✓ Residents can view all the issues that they have submitted

The smartphone screen displays the 'Issue Info' page for Issue No. 230. The page layout includes a title, unit number, status, submitted by, submit date, sensitivity, due date, assigned to, scope, category, priority, developer defect, related issue number, and a description.
